AUGUST 2007

LATEST NEWS

2007 has already turned into a busy year for us. It is with relief and pride that we can announce our new website which illustrates many of the new exciting and diverse projects we have undertaken. Featured above is our Sculptures' Retreat which won Gold at this years **Gardener's World Live Show** for the designer Sue Adcock. Customers can now order their own willow retreat. You can now buy online and pursue our new stock at www.naturalfencing.com

Subscribe to our new quarterly newsletter either online or by contacting us and receive top tips on gardening, fencing, as well as special seasonal offers.

NEW STOCK

We now have large stock of standard sized willow and hazel hurdles.

We believe that our hurdles are the sturdiest on the market made with the most material remaining best value for money.

Among other things in our new range we are excited to present our customers with beautiful rolls of chestnut pailing and rustic traditional chestnut post and rail fencing which is made by hand from chestnut coppice. This range has proven to be very popular so start measuring up for yours before we sell out of our current stock.

We hope to showcase a growing range of gifts and accessories on our website for the budding gardener. We have a limited supply of beautiful leather bound Gardener's Journals which are available now for £19.99

Our willow screening rolls are incredibly good value providing a whopping five meter length in each roll and they competitively priced.
